

Disney is losing their sh&t because we supposedly passed "Don't Say Gay" (we didn't), but told their employees they can't say "boy, girl, ladies, or gentlemen." This is insanity. Wokeism is evil, and we will destroy it in FLA. Why? #BecauseWeCan #WeAreJustGettingStarted

I've had enough. Next session, I will shepherd legislation to make it illegal to provide drugs or surgery to a minor for "gender assignment." Will make it felony child abuse punishable by prison/loss of medical license. This legislation would not affect mental counseling.

I can say I'm a porcupine, but that doesn't make it so. It is time to dispense with this fantasy making women's sports a joke and our schools into a cesspool. I've taken on Common Core, university corruption, and school board lawbreaking. And won every time. This is next.

The battle for our children begins today. I have just filed HB 1421 which bans the mutilation of children in the name of radical "transgender" theory, bans Florida citizens from having to pay for these procedures for other non-minors, and gives those tricked into this fraud thirty years to sue those who did it to them. I have also filed HB 1423 which will protect our children by ending the gateway propaganda to this evil -- "Drag Queen Story Time." I will relish the battle ahead.

If an adult wants to self-mutilate in pursuit of the fiction they can defy G-d and science, more power to them -- as they don't expect me to pay for it. But no child should be put in the position of making life-altering decisions before they are of the age of majority.

I'm enjoying the nice pictures of myself and @GovRonDeSantis in the media from our 2019 Israel trip where we signed the most aggressive anti-Antisemitism bill in history (until this year!) and more recently, our Tampa bill signing where we banned child "transgender" mutilation!

For those of you who think this is isn't happening, there is a Miami doctor grooming young girls on TikTok to have themselves mutilated. This is doctor-driven child abuse, and it needs to end. 4w.pub/tiktok-gender-...

The Florida Psychiatric Society, a branch of the @APApsychiatric, and the Florida Chapter of the @AmerAcadPeds have just filed emergency injunctions to prevent sharing their "science" justifying the castration and mutilation of children. This tells you all you need to know.

I just signed subpoenas to the Florida Psychiatric Society, a branch of the @APApsychiatric, and the Florida Chapter of the @AmerAcadPeds demanding production of all materials justifying their recommendation that castrating and mutilating children is "gender affirming care."

Just got a media call for comment on people leaving FL because of my bill making child castration illegal. My reply? "Good riddance. Take your evil elsewhere. I hear they love mutilating kids in the woke paradise of CA between homeless camps and "mostly peaceful" protests."

It's clear that Democrat Judge Hinkle is a science-denying wokeist whose radical order will soon be overturned by jurists who actually believe in science. We will not stop fighting to defend children from those like Hinkle who support child castration and mutilation.

The butchering of children will be illegal in Florida, Florida citizens will not be obligated to pay for the sexual mutilation of adults, and those tricked into this evil will have 30 years to sue those who misled them. That's HB 1421 and I am proud to file it.

Mr. President @JoeBiden, I mean no disrespect, but your latest idea of allowing biologic men to participate in women's sports show you have no concept of the intent of title IX protections. One cannot decide their sex, it is decided at birth by their creator.
